8. (Confidential - JGO) Lawrence Houston, OGC,
DD/S, and I met with Herb Roback, Staff Director, House Government
Operations Committee and brought him up-to-date on the present status
of SAT. In response to Mr. Houston's main thesis that sale of SAT to
Stan Williams, who will continue as a Part 121 operator, would avoid the
many problems of liquidation and would tend to finesse possible legal
action by the intervenors, Roback indicated that in his judgment there will
be publicity and complaints no matter how we move and in this instance
he would agree that we might better move in the direction we desire.
Roback would appreciate being kept abreast of this matter. For details,
see Mr. Houston's Memo for the Record of 2 October.
